Personnel of Amarillo College

Dr. Fred Williams, President 371-5124
Dr. R.E. Byrd, Vice President and Dean of Instruction 371-5127
Lou Ann Seabourn, Coordinator of Off-Campus Programs 371-5122
Dennis McMillan, Registrar 371-5024

Division Chairmen
Art Schneider, Sciences and Engineering 371-5091
Dr. Paul Matney, Language, Communication, amd Fine Arts 371-5226
Jerry Moller, Behavioral Studies 371-5297
Glen Phillips, Amarillo Technical Center & Industrial Technology 335-4201
Business Division 371-5269

Department Chairmen
Dr. A. F. Adkins, Engineering/Electronics Technology 371-5274
Dr. Robert Bauman, Biology 371-5093
Robert Boyd, Speech & Theater Arts 371-5232
Tom Cole, Business Administration 371-5242
Tom Hodges, English 371-5180
Danita McAnally, Radio/Television & Journalism 371-5273
Henry Wycoff, Automotive Technology 335-4209
John Pool, Mathematics 371-5325
Art Schneider, Physical Science 371-5328
Robert Sloger, Computer Information Systems 371-5214
Jack Stanley, Electronic Systems and Instrumentation Technologies 335-4318

Program Coordinators
Melonye Curtis, Childhood Development/Early Childhood 356-3689
Joyce Hinsley, Modern Languages 371-5078
Carol Nicklaus, Humanities 371-5354
Bill Stephens, Social Sciences 371-5191

“The best of all things is to learn. Money can be lost or stolen, health and strength may fail, but what you have committed to your mind is yours forever.”

Louis L’Amour
Program Description and
General Information

The Dual-Credit Program is a cooperative partnership between an independent school district and Amarillo College through which a student may be awarded both college and high school credit in courses which meet the requirements of both institutions. The high school will identify students who are eligible for dual-credit courses and will recommend courses which potentially qualify for dual-credit. Students who meet specific eligibility requirements will be permitted to enroll in those Amarillo College courses specified in the dual-credit agreement and to simultaneously earn credit toward high school graduation and college credit.

- Instructors of the dual credit courses must meet the minimum requirements of the Southern Association of Colleges and Schools Accrediting Agency. (Masters degree including 18 graduate hours in discipline unless SACS requirements permit otherwise).

- Dual-credit courses are joint college-level and high school courses that must meet both high school (TEKS) and college standards.

- The dual-credit agreement will be approved by the Superintendent of the ISD and the President of Amarillo College based on the recommendation of the appropriate individuals of each institution.

- The college faculty will meet with the high school faculty to match competencies and identify courses to be offered for dual credit. A departmentally approved syllabus must be used. Syllabi are kept on file in the department office.

- Each course is required to follow the college departmental guidelines and regulations. These regulations will vary from department to department. They should not be expected to be identical as the courses themselves are not identical. Before registering students for a dual credit class, the high school faculty must check with the college department or program chair to go over departmental policy.

- Claiming of ADA (Average Daily Attendance) for students in dual credit courses is the responsibility of the independent school district in accordance with the Texas Education Agency rules.
Amarillo College Dual-Credit Guidelines

A dual-credit program presents unique opportunities and challenges. The independent school district and Amarillo College will work together to provide an optimum learning experience for dual-credit students.

Amarillo College enters into contractual agreements with independent school districts to award dual-credit. In order to ensure that the dual-credit course meets the required college and high school learning experiences, the following options and guidelines are offered.

Definition of Terms

**Concurrent-credit** - a high school student who meets specific eligibility requirements enrolls in Amarillo College courses for college credit only

**Department Head** - refers to the Amarillo College faculty member who manages a particular program area

**Dual-credit program** - a cooperative partnership between an independent school district and Amarillo College enabling high school students to earn college credits while completing the requirements for high school graduation

**Dual-credit** - a high school student who meets specific eligibility requirements enrolls in Amarillo College courses and earns credit toward high school graduation and college credit concurrently

**Early admission** - a high school student enrolls in college level courses prior to graduating from high school

**Instructor of record** - an instructor who meets the SACS accreditation requirements and teaches for Amarillo College full- or part-time or within an independent school district and is the instructor listed on the official class roll of the dual-credit course

**ITV course** - a college course which uses the telecourse program material as the basis of the course whether broadcast or from tapes

**Support instructor** - an instructor within an independent school district who provides classroom support for the instructor of record
Dual-Credit Options and Guidelines

I. Program Options and Guidelines

A. Option 1 - A high school student enrolls in an Amarillo College course independent of high school enrollment, and the high school allows credit towards high school graduation.

B. Option 2 - A high school student earns both high school and college credit for a course taught in the high school. The instructor, whether high school or college, must meet the requirements of the Southern Association of Colleges and Schools Accrediting Agency (Masters degree including 18 graduate hours in discipline unless SACS requirements permit otherwise) and be approved by the appropriate Amarillo College department.

   1. The high school instructor and the Amarillo College department work together to determine the learning experiences necessary to meet the essential requirements of both the high school and college course.

   2. The teacher will:
      a. use a departmentally approved textbook and syllabus.
      b. be involved in the same instructor/course evaluation procedures as all Amarillo College faculty.
      c. follow all departmental guidelines provided by the department chairman.
      d. comply with all reporting requirements as directed by the Office of the Registrar.

C. Option 3 - The Amarillo College ITV course is completed in its entirety. Additional materials and requirements may be used by the high school for the high school portion of the class. Dual-credit students earn both high school and college credit.

   1. The instructional video is assimilated into the high school course by the support instructor. (PLEASE NOTE: This option is not available for Freshman Comp I or II.) All the provisions listed apply to the requirements of the college course and are not meant to imply any restrictions on the high school course.

   2. An Amarillo College instructor serves as the instructor-of-record for the dual-credit students. The instructor-of-record will:

      a. meet with the dual-credit class before or within the first week of the college semester.
      b. communicate as needed with the support instructor.
      c. follow the guidelines established by his/her department for successful completion.
d. be responsible for all college credit grading and awarding of Amarillo College final grades.

3. The high school instructor serves as the support instructor for the dual-credit students and will:
   
a. meet with the instructor-of-record and the department head prior to the beginning of the semester.
b. teach to the syllabus provided by the instructor-of-record and remit assignments as due.
c. teach from the required college textbook (including study guides) unless authorized by the department head to use a different text.
d. show the instructional television tapes in class to dual-enrolled students. ITV lessons must be taped off-air and erased after viewing as required by copyright laws.
e. communicate as needed with the instructor-of-record.
f. assist the instructor-of-record in complying with all Amarillo College reporting requirements.

D. **Option 4 -** An Amarillo College instructor, as instructor-of-record, shares responsibility for the dual-credit course with the high school instructor. Enrolled students earn both high school and college credit. Classes must have at least ten (10) students for Amarillo College to send an instructor of record to another campus. Exceptions must be individually justified and approved. Arrangements may be made for classes to be offered through alternative delivery styles. A variety of strategies may be used to accomplish this option. Specific guidelines are established by each department.

1. The high school faculty and the Amarillo College department work together to determine the learning experiences necessary to meet the essential requirements of both the high school and college course.

2. An Amarillo College instructor serves as the instructor-of-record for the dual-credit students. The instructor-of-record will:
   
a. meet with the dual-credit class before or within the first week of the college semester and regularly throughout the semester.
b. communicate as needed with the support instructor and meet with the dual-credit students as required by the department head.
c. implement necessary enhancements to courses for the dual-credit students to assure college-level rigor and content.

3. The high school instructor will serve as the support instructor for the dual-credit students and will:
a. meet with the instructor-of-record and the department head prior to the beginning of the semester.
b. teach the dual-credit course to the syllabus provided by the instructor-of-record and remit assignments as due.
c. teach from the required college textbook unless authorized by the department head to use a different text.
d. communicate as needed with the instructor-of-record.
e. assist the instructor-of-record in complying with all Amarillo College reporting requirements.

II. Student Guidelines

The dual-credit student will:

1. comply with the state-mandated Texas Academic Skills Program (TASP).
2. take applicable Amarillo College placement tests prior to enrolling in the dual-credit class.
3. complete the dual credit application acquiring the appropriate signatures.
4. be classified as a junior or senior and have a minimum of a B overall average.
5. meet established entrance requirements at Amarillo College as well as appropriate prerequisites for any course.
6. pay the costs associated with taking a college course(s) as established by contractual agreement.

III. Texas Higher Education Coordinating Board Rules

See the appendix for a copy of the latest copy of guidelines and rules that Dual-Credit Programs are required to follow. They include teacher credentials, class composition, student eligibility, and other pertinent information.

Checklist for Students
Dual Credit Enrollment

Make sure you have the following materials for registration:

- Verification of passing TASP or a state approved alternative test, or proof of exemption
- "Dual Credit Application" - signed by parent, principal, and student
- "Amarillo College Student Application for Admission" form
- "Residency Information" questionnaire
- Completed demographic form
- "Student Schedule" form (blue)
- Fees - $5.00 per hour (3 hour course is $15.00). Fees will increase to $10.00 per hour beginning with the enrollment for the Spring 2000 semester.

If a student was enrolled in dual credit the previous semester, they will need:

- "Student Schedule" form (blue)
- "Dual Credit Application" form - signed by parent, principal, and student
- Check testing status - Different classes require different tests
- Fees - $5.00 per hour. Fees will increase to $10.00 per hour beginning with the enrollment for the Spring 2000 semester.
There is something that is much more scarce, something finer far, something rarer than ability. It is the ability to recognize ability."

Elbert Hubbard
History

Amarillo College was created by a vote of local citizens on July 16, 1929. Beginning in rented quarters in the old Municipal Auditorium, the College enrolled its first student in September of 1929.

The College moved to its present location with the construction of its first permanent building, now Ordway Hall, in 1937. Today, Amarillo College operates from 27 buildings on three campuses encompassing some 73 acres.

After serving primarily as a junior college offering arts and sciences courses, the curriculum was expanded in 1942 to include vocational courses. The trend continued with the return of World War II veterans seeking post secondary education under the provisions of the so-called G.I. Bill.

In 1958 Amarillo college was granted its own Board of Regents independent of the trusteeship of the Amarillo public schools. The 1960s brought expansion in college facilities and programs. A number of allied health and occupational-technical programs were added to the curriculum along with an extensive array of continuing education and community service courses.

Amarillo College now serves a multitude of people each year in academic, occupational-technical, and continuing education programs.
Mission

Amarillo College, a public community college, provides educational programs, services, and resources for the residents of Amarillo and its surrounding area. With fundamental principles affirming the value of education, the freedom for teaching and learning, and the worth and dignity of each individual, the College emphasizes innovation, excellence, and leadership in its mission to be an exemplary community college.

Goals of Amarillo College

♦ provide programs leading to associate degrees and certification in university parallel and occupational-technical areas,
♦ provide courses and programs to enhance occupational skills and to meet community employment needs,
♦ provide courses and programs to broaden awareness and enrich personal development
♦ provide basic skills and other developmental education,
♦ provide student and educational support services,
♦ be a center for social and cultural interaction, and
♦ participate in community research and economic development.

Commitments of Amarillo College

In these goals Amarillo College is committed to:

♦ excellence in teaching and learning
♦ high academic standards
♦ lifelong learning
♦ faculty development and research
♦ total growth of the student
♦ students’ pursuit of success
♦ academic freedom and diversity of thought
♦ an open-door admission
♦ community awareness of college programs
♦ minimal tuition and fees
♦ efficiency and accountability
♦ staff support and development
♦ fiscal responsibility
♦ institutional evaluation and planning
♦ the value of the associate degree
Code of Ethics

Professional Educators affirm the inherent worth and dignity of all persons and their right to learn. Learning best occurs in an environment devoted to the pursuit of truth, excellence, and liberty. These traits flourish where both freedom and responsibility are esteemed.

In order to more adequately express the affirmation of our professional responsibilities, we the faculty of Amarillo College do adopt the following code of professional ethics:

The Professional Educator shall treat all persons with respect, dignity, and justice, discriminating against no one on any arbitrary basis such as race, creed, sex, age, or social station.

The Professional Educator shall strive to help each student realize his or her full potential as a scholar and as a human being.

The Professional Educator shall by example and action encourage and defend the unfettered pursuit of truth by both colleagues and students, supporting the free exchange of ideas, observing the highest standards of academic honesty and integrity, and seeking always an attitude of scholarly objectivity and tolerance of other viewpoints.

The Professional Educator, recognizing the necessity of many roles in the educational enterprise, shall work in such a manner as to enhance cooperation and collegiality among students, faculty, administrators, and non-academic personnel.

The Professional Educator shall recognize and preserve the confidential nature of professional relationships, neither disclosing nor encouraging the disclosure of information or rumor which might damage or embarrass or violate the privacy of any other person.

The Professional Educator shall maintain competence through continued professional development, shall demonstrate that competence through consistently adequate preparation and performance, and shall seek to enhance that competence by accepting and appropriating constructive criticism and evaluation.

The Professional Educator shall exercise the highest professional standards in the use of time and resources.

The Professional Educator, recognizing the needs and rights of others as embodied in the institution, shall fulfill the employment agreement both in spirit and in fact, shall give reasonable notice upon resignation or retirement, and shall neither accept tasks for which he or she is not qualified nor assign tasks to unqualified persons.

The Professional Educator shall support the goals and ideals of the institution and shall act in
public and private affairs in such a manner as to bring credit to the institution.

The Professional Educator shall observe the stated rules and regulations of the institution, reserving the right judiciously to seek revision.

The Professional Educator shall participate in the governance of the institution by accepting a fair share of committee and institutional responsibilities.

The Professional Educator shall support the right of all colleagues to academic freedom and due process and defend and assist a professional colleague accused of wrongdoing, incompetence, or other serious offense so long as the colleague's innocence may reasonably be maintained.

The Professional Educator shall not support the continuation in higher education of a colleague known by him or her to be persistently unethical or professionally incompetent.

The Professional Educator shall accept all the right and responsibilities of citizenship including participation in the formulation of public policy, always avoiding use of the privileges of his or her public position for private or partisan advantage.

(Source: Texas Community College Teachers Association)
Class Rolls

State funding is determined from reports which are based on the class rolls that are verified by the instructor each semester. Since the majority of our funding is from the state, it is important we receive these records on time and that they are accurate. Instructions for verifying and returning the forms are sent to you with the class rolls. Dual credit students must be enrolled properly. If a student’s name is not on your roll, it is a sign that the student is not officially enrolled in the proper class. Contact either the Coordinator of Off-Campus Programs or the Registrar to correct the matter.

**TWELFTH DAY CLASS ROLLS MUST BE TURNED IN PROMPTLY!**
(preferably within twenty four hours from the time they are received)

Student Evaluations

Each dual credit instructor of record will be required by the department or division chairman to provide each dual credit student the opportunity to evaluate the course. The chairman will review the evaluations and discuss them with you. Instructions for conducting the evaluation will be provided by the chairman.

It is important that these evaluations be completed since this is one factor used in evaluating supplemental faculty for subsequent employment.

Drop Procedure

Dual credit students wishing to drop a class must complete the Amarillo College paperwork. Students who do not officially drop, but stop attending or only drop the high school course, will be treated as if they are still enrolled. This usually results in failure of the class. Forms for dropping may be obtained by calling the Coordinator of Off-Campus Programs.

Financial Aid Implications:

Withdrawing from a dual-credit course may seriously affect future federal financial aid. When a student applies for federal student aid at Amarillo College, the Financial Aid office evaluates all previous grades made by that student at Amarillo College. This includes dual credit courses.

The student’s previous academic history at Amarillo College must reflect at least a 2.0 cumulative grade point average and at least an 80% course completion rate. Any course in which an F, I, W, N, or AU was received does not count as a completed course. Students who do not meet these criteria are placed on financial aid suspension. They are not eligible to receive Federal Title IV student aid until the student’s suspension status has been changed according to Amarillo College’s Satisfactory Academic Progress Policy.
Every school is required to have a Satisfactory Progress policy. If a student is planning to attend another school besides Amarillo College, they should contact that school’s Financial Aid Office to determine how a student’s college academic history, including dual credit courses at Amarillo College will affect their eligibility for financial aid.

Grade Reports

A final grade report is made each semester and the grade which will be entered on the student transcript is mailed to the student.

A grade report form and a letter of instruction will be provided by the Registrar’s Office to each instructor for each class. Be sure to note the deadline dates. Dual credit deadlines are not always consistent with the on-campus dates.

Before returning the grade sheets to Amarillo College, make a copy for your high school counselor.

Attendance/Grade Records Policy

Attendance records must be carefully kept by faculty in order to comply with requests from the Registrar’s Office. These records are official records of Amarillo College and will be the source documents consulted in the event the Coordinating Board officials audit our enrollment reports.

Faculty must keep the record of grades on file in their offices at least five years. If they leave the faculty, the record of grades are to be given to the department chair or immediate supervisor. Faculty on temporary appointment and part-time faculty must turn in their grade and student attendance records to their department chair at the end of each academic year or at the conclusion of their teaching responsibilities.

Faculty will be provided with computer generated forms for record keeping. This will necessitate the keeping of two sets of records by dual credit faculty members, one for the high school and one for the college.

Syllabi

A syllabus is required for each course taught at Amarillo College. A copy of the current syllabus must be kept on file in the appropriate departmental office.
Changing Grades

Occasionally it will be necessary to change a student's final grade. A “Change of Grade Form” should be completed, in duplicate, and submitted to the Registrar’s Office. Grade Change Forms may be obtained by calling the Office of Off-Campus Programs. If over six months have elapsed since the grade was assigned, the Vice President/Dean of Instruction must approve the change.

Affirmative Action

Amarillo College is an equal opportunity employer and will assure that:

1. Persons are recruited, hired, and promoted for all positions without regard to race, religion, color, national origin, sex, or age.
2. Placement decisions are based on an individual’s qualifications for the positions being filled.
3. Other personnel actions, such as compensation, benefits, transfers, layoff, returns from layoffs, College-sponsored training, educational, tuition assistance, and social and recreational programs, are administered without regard to race, religion, color, national origin, or sex.

Employment Forms

When a dual credit instructor is employed initially, an application form must be completed to provide stipend information and comply with state and federal requirements. Also, official college transcripts are required to be on file with the Office of Personnel Services in compliance with the accreditation requirements of the Southern Association of Colleges and Schools (SACS).

To be turned in:
   Amarillo College Application Form
   Official College Transcripts

Privacy Act

The Federal Family Educational Rights and Privacy Act of 1974 (the Buckley Amendment) guarantees students 18 years of age or older access to their records, but guarantees privacy of these records from disclosure, unless released by the student. Student records are not open for public inspection; for example, care should be taken, if grades are posted, to insure that the procedure does not conflict with the intent of this Act.
“Man lives more by affirmation than by bread.”

Victor Hugo
Lucille King Lynn Library

The Lucille King Lynn Library is a member of the Harrington Library Consortium. This membership allows all students and faculty holding a library card from any school or city in the dual-credit service area to use the library. They may check out materials, take advantage of library tours, use the online services, or take advantage of the expertise of the library staff.

Web/site
http://www.hlc-lib.org/aclib/

An user friendly web page provides patrons with a wide range of information; from on campus activities to full text electronically retrieved periodicals from around the world. It allows patrons to search library catalogs and databases; look up reference information in dictionaries, directories, and other sources; read full-text periodicals from Texas, the USA, and around the world; use search tools, subject bibliographies, and AC faculty web sites; read the Lynn Library’s What’s New, bibliographies, and guides; and find full-text information in The Electronic Resource Library and other text archives.

Databases

Databases may be chosen from the Lynn Library homepage. The Lynn Library offers the following databases:

Ovid - Ovid databases offer over 1100 full-text periodicals from ABI/Inform and Periodical Abstracts. Ovid is powerful software for searching the ABI/Inform business and Periodical Abstracts databases.

ERIC database and ERIC Digests - The Lynn Library now offers the ERIC database and its companion ERIC Digests database. Choose Databases on the Lynn Library homepage.
OCLC FirstSearch - OCLC FirstSearch service give library users access to 15 online databases. Included are these OCLC databases: WorldCat, OCLC FirstSearch Electronic Collections Online, OCLC NeffFirst, OCLC ArticleFirst, OCLC ContentsFirst, OCLC FastDoc, OCLC PapersFirst, OCLC ProceedingsFirst, and OCLC Union Lists of Periodicals. FirstSearch offers a variety of document delivery choices, including E-mail, interlibrary loan, fax, overnight carrier, and regular mail. OCLC provides access to FirstSearch only through libraries.

Harrington Library consortium Online Catalog - HLC provides information about 2,200,000 items at more than 50 Panhandle libraries. Students primarily use the online catalog to locate books on their research topics. It features easy search techniques for locating materials by author, title, subject, and call number, as well as by keyword.

TexShare - TexShare is a cooperative program designed to improve library service to students, faculty, and staff of Texas institutions of higher education. Cooperative development of collections and the efficient sharing of those collections is the focus of the program, which emphasizes electronic information resources as well as traditional collections of books and journals.

New at the Lynn Library

College Source - http://www.hlc-lib.org/aclib/dbases/ - 9,000 college catalogs available online. These are complete catalogs including course descriptions, faculty information, admission requirements and more.

FACTS.com - http://www.hlc-lib.org/aclib/ - brings together content from seven core reference databases to answer questions about events, issues, statistics and people of the last 20 years. FACTS.com is published by Facts On File News Services.

Services:
The Lynn Library Staff will be glad to accommodate dual-credit faculty and students. Library tours and research seminars may be arranged on the Washington Street Campus. To arrange a tour or other service, contact Jan Gillham (371-5403).
Advising and Counseling Center

Advising and Counseling services are available for all students and prospective students. Professional counselors are available to help individuals evaluate academic, personal, and career options. The Advising and Counseling Center is located in the Student Service Center on the Washington Street Campus. The phone number is 371-5440.

General services of the Center include:
- Education and Career planning and academic course advisement for prospective students interested in college
- Academic advising for those majoring in General studies, Elementary Education and persons who are undecided about a major
- Comprehensive services for students planning to transfer to universities or entrance into professional schools
- Counseling to assist those who are having personal or life adjustment difficulties.

The Washington Street Center is open from 8:00 a.m. until 7:30 p.m., Monday through Thursday, and from 8:00 a.m. until 5:00 p.m. on Friday.
Testing Services

Testing Services, a unit of the Amarillo College Advising and Counseling Center, supports instruction and academic planning by providing various assessment services for students and prospective students. The Testing Center is located in the Student Service Center on the Washington Street Campus. The phone number is 371-5445.

Amarillo College’s academic honesty policy, published in the Student Rights and Responsibilities bulletin states: “students are expected to maintain a high standard of individual honor in their scholastic work.” Students who are guilty of cheating, plagiarism, or dishonesty may be excluded from classes with a grade of F, or in flagrant cases, may be suspended from the College.

Amarillo College administers a variety of different tests. Tests given are:

**ACT (American College Testing)** - ACT is a standardized test which measures skills in English, Mathematics, Social Studies, and Science reasoning. The ACT test is often used as a criterion for college admission. Although neither the ACT or SAT (Scholastic Assessment Test) is required for admission to Amarillo College, academic credit may be awarded based upon scores achieved.

**SAT (Scholastic Assessment test)** - The SAT program has two components: SAT I - Reasoning Test and SAT II -Subject Tests. Both measure skills important for academic success, and are often used to grant admission, credit, and/or placement in college.

**TASP (Texas Academic Skills Program)** - The TASP program is designed to ensure that students have the academic skills necessary for effective performance in college-level course work. The TASP test is a diagnostic assessment for skills in reading, writing, and mathematics.

TASP must be taken prior to enrollment in college credit classes unless a student is TASP exempt.

TASP testing is available six times per year on dates set by the Texas Higher Education Coordinating Board, in cooperation with National Evaluation Systems. Amarillo College also serves as a special accommodations test center for students who have requested and documented exceptional testing needs. In addition, Amarillo College provides TASP testing on alternate dates for students whose religious practices prevent Saturday testing. Advance registration and payment are required for the TASP test. Registration materials and further information about TASP are available from Testing Services.
**Alternative Testing** - Students should make every effort to take TASP before enrolling at Amarillo College. If this is not possible, alternative tests to the TASP are offered through Testing Services. The alternative tests offered at Amarillo college are MAPS and ACCUPLACER. Alternative tests measure reading, mathematics, and writing skills, and a multiple-paragraph written essay of 300 to 600 words. Alternative tests are to be used only for initial testing; the TASP test must be used for all retakes. Questions about alternative testing needs should be directed to Testing Services.

Legislative and policy changes may affect information on testing services.

Dates and times of tests vary. Check with the high school counselor for information (registration forms, dates, guidelines, etc.) about each test. To schedule a test call the Amarillo College Testing Center.
ACcess Center

Any student who needs assistance in a course can request a tutor through the Access Center. Peer tutors are available at no cost in almost every subject. Tutoring can help students understand course material better while gaining confidence in their own abilities. All tutoring is done on the AC Campus. Faculty may make arrangements by calling ACcess at 371-5432.

Study skills help goes hand-in-hand with tutoring. Through one-on-one help in the Tutoring and Study Skills Lab (TASSL), students can improve their study habits and acquire a variety of free material on study skills. Access also offers study skills help through workshops and courses.

In addition ACcess offers Lunch and Learn Seminars. These seminars are held on the Washington Street Campus at noon on selected Thursdays. Each seminar is recorded and tapes may be checked out at the Reserve Desk on the first floor of the Lynn Library. A handout accompanies each tape and the handout may be duplicated. Topics for the Lunch And Learn Seminars include:

- 20 Ways to Succeed in College
- Taming Time and Building a Study System
- Tackling the Textbook and Getting Control
- Taking Note of Lectures
- Analyzing Your Learning Style
- Memory Techniques - Remembering and Recall
- Stressing the Point
- De-Traumatizing Test Taking
- Math! A Four Letter Word
- Test Review: The Light at the End of the Tunnel

Another service of the ACcess division is TASP Preparation Seminars. These seminars are designed to give students information about preparing for and taking the TASP test. The seminar also offers ideas to help a student with study methods and test taking techniques. For information on the TASP Preparation Seminars contact Ann Britt at 371-5464.
Professional Development

Amarillo College has a comprehensive development program designed to promote quality performance and to improve skills of all employees in tasks related to organizational, program, and staff development. Under the plan, faculty, classified employees, and administrators each have committees representing their particular concerns who prioritize and plan activities. Each representative committee sends its ideas to a central clearinghouse committee for further refinement, elimination of duplication, and prioritization for budget purposes.

As Amarillo College employees, dual-credit instructors are encouraged to participate in Professional Development activities. If you would like to receive information about upcoming activities or to become involved in the program, please contact Patsy Lemaster, Coordinator of Professional Development, at 371-5254 or by e-mail at pclemast@actx.edu.

MEMORANDUM

November 17, 1998

TO: Presidents and Chancellors
Public Two-Year Associate Degree-Granting Institutions

FROM: Glenda O. Barron

SUBJECT: ADOPTED Rules: Chapters 9, Subchapter H

On October 23, 1998, the Coordinating Board took action on a number of rules amendments which affect public two-year associate degree-granting institutions. Enclosed are the rules that were adopted regarding secondary and postsecondary partnerships, with special emphasis on concurrent (dual) credit.

Enclosure
9.141. Purpose.

The Coordinating Board encourages and supports partnerships between secondary schools and public two-year associate degree-granting institutions, including such initiatives as Tech-Prep and concurrent course credit which allow secondary students to receive both high school and college-level credit for college-level courses.

The purpose of this subchapter shall be to provide rules and regulations for public two-year associate degree-granting institutions in partnership initiatives with secondary schools.

9.142. Authority.

Texas Education Code, Sections 29.182, 29.184, 61.076(a), 130.001(b)(3)-(4), 130.008, 130.090, and 135.06(d), authorize the Coordinating Board to adopt policies, enact regulations, and establish rules for public two-year associate degree-granting institutions to enter into agreements with secondary schools to offer courses which grant credit toward the student's high school academic requirements and/or college-level credit.

9.143. Types of Partnerships.

(a) Partnerships for Award of High School Credit Only. Contractual agreements between public school districts and public two-year associate degree-granting institutions in which the latter provides instruction in courses to high school students for award of high school credit only. Rules for these agreements are located in Subchapter G, Section 9.125 of this title.
(b) Partnerships for Award of Concurrent Course Credit. Partnerships between secondary schools and public two-year associate degree-granting institutions in which the latter provides instruction to high school students for immediate award of both high school credit and college certificate and associate degree credit.

(c) Partnerships for Tech-Prep Programs. Partnerships between public school districts and public two-year associate degree-granting institutions to allow for the articulation of high school technical courses taught by the high school to high school students for immediate high school credit and later college credit, to be awarded upon enrollment of the students in a two-year associate degree-granting institutions in an associate degree or certificate program.

(d) Partnerships for Remedial Developmental Instruction for High School Graduates. Partnerships between public school districts and public two-year associate degree-granting institutions to provide instruction by the latter to high school students for either remedial course work to prepare students to pass the Texas Assessment of Academic Skills (TAAS) test or developmental course work to prepare the students to pass the Texas Academic Skills Program (TASP) test.

9.144. Partnership Agreements.

(a) Need For Partnership Agreement. For any instructional partnership between a secondary school and a public two-year associate degree-granting institution, an agreement must be approved by the governing boards or designated authorities of both the public school district or private secondary school and the public two-year associate degree-granting institution prior to the offering of courses.

(b) Elements of Partnership Agreements. Any partnership agreement as described in Section 9.143 must address the following elements:

1. Student eligibility requirements;
2. Faculty qualifications;
3. Location and student composition of classes;
4. Provision of student learning and support services;
5. Eligible courses;
6. Grading criteria;
7. Transcripting of credit; and
8. Funding provisions.
9.145. Concurrent Course Credit.

(a) Student Eligibility Requirements.

(1) To be eligible for enrollment in a concurrent credit course in an associate degree or level two certificate (TASP-eligible) program, the high school student must present a passing score on the Texas Academic Skills Program (TASP) test or a Board-approved alternative assessment instrument in at least one area (mathematics, reading, writing) as deemed applicable by the college for the intended concurrent course in which the student shall enroll. Students who are exempt from taking the TASP test or the alternative assessment are also exempt for purposes of concurrent course credit. Concurrent course credit students must comply with the rules and regulations of Chapter 5, Subchapter P of this title (relating to Testing and Developmental Education).

(2) To be eligible for enrollment in a concurrent credit course in a TASP-waived college certificate program, the high school student must have passed all sections of the exit-level TAAS test.

(3) Students who are home-schooled or enrolled in private or non-accredited secondary schools must satisfy paragraph (1) of this section.

(4) The class load of a high school student shall not exceed two college credit courses per semester. However, under special circumstances that indicate a student with exceptional academic abilities is capable of college-level work, based on such factors as grade-point average, ACT or SAT scores, and other assessment indicators, the chief academic officer of a community or technical college may grant exceptions to this requirement.

(b) Faculty Qualifications.

(1) All instructors must meet the minimal requirements as specified by the Commission on Colleges of the Southern Association of Colleges and Schools.

(2) The college shall select, supervise, and evaluate instructors for courses which result in the award of concurrent credit.

(3) Instructors teaching courses which result in the award of concurrent credit must be regularly employed faculty members or must meet the same standards, review, and approval procedures used by the college to select faculty responsible for teaching the same courses at the main campus of the college.

(4) Official transcripts of instructors must be kept on file at the college.

(c) Location and Student Composition of Classes for Concurrent Course Credit. Concurrent credit courses must be taught on the college campus or in classes composed solely of concurrent, advanced placement (AP), and/or college credit students. Exceptions for
a mixed class, one composed partly of students enrolled for high school credit only and partly of students enrolled for concurrent, AP, and/or college credit, will be allowed under one of the following three conditions:

(1) If the course involved is required for completion under the State Board of Education Recommended High School Program graduation requirements and the high school involved is otherwise unable to offer such course; or

(2) If the high school involved is classified by the Texas University Interscholastic League as a Class AA school or below, the mixed class will be allowed until September 2002, by which time small school districts should have developed the capacity to receive concurrent credit courses from colleges via instructional telecommunications; or

(3) If the mixed class is limited to enrollment of high school honors students, all of whom will be taught the college-level course.

(d) Student Services.

(1) Students must be given access to the college library, accorded appropriate privileges, and have adequate library resources convenient for use at the site where concurrent course credit is offered.

(2) Students enrolled in concurrent course credit must be provided adequate academic support services including academic advising and counseling.

(e) Eligible Courses.

(1) Courses offered for concurrent course credit must be identified as college-level academic courses in the current edition of the Community College General Academic Course Guide Manual or as college-level technical courses in an approved Tech-Prep or Associate of Applied Science (AAS) degree or certificate program.

(2) Instruction and materials for concurrent course credit must be at the equivalent level of the instruction and materials used for the identical course taught on the main campus of the college.

(f) Grading Criteria. For technical and academic concurrent credit courses, grading criteria should be devised to allow faculty the opportunity to award high school only or high school and college credit depending upon student performance.

(g) Transcripting of Credit. For technical and academic concurrent credit courses, high school as well as college credit should be transcripted immediately upon a student's successful completion of the performance required in the course.

(h) Funding.
(1) The state funding for concurrent credit courses will be available to both public school districts and public two-year associate degree-granting institutions based upon the current agreement between the Commissioner of Education and the Commissioner of Higher Education.

(2) The college may claim funding for all students enrolled in concurrent course credit.

(3) Only a public community/junior college may waive tuition and fees for a Texas public high school student enrolled in a course for which the student may receive concurrent course enrollment credit. Public technical colleges and other public two-year associate degree-granting institutions may not waive tuition and fees.

(a) As outlined under Chapter 9, Subchapter G, Section 9.125 of this title, community/junior and technical colleges may contract with public secondary school districts to provide remedial courses for students enrolled in public secondary schools in preparation for graduation from high school. Such courses are not eligible for state formula funding.

(b) High school students who have passed all sections of the exit-level TAAS test may be permitted to enroll in state-funded developmental courses offered by a college at the college’s discretion if a need for such course work is indicated by student performance on the TASP test or an approved alternative assessment instrument.

(c) Remedial and developmental courses may not be offered for concurrent course credit.

(d) Only a public community/junior college may waive tuition and fees for a Texas public high school student enrolled in a remedial course or a developmental course. Public technical colleges and other public two-year associate degree-granting institutions may not waive tuition and fees.

9.147. RESERVED (Tech-Prep).
